

AM-901B

INFRARED SENSOR EXIT BUTTON (NO TOUCH)

Key Features

- Stainless steel panel with elegant style contactless IR sensor and LED indication.
- High sensitivity sensor for fast identification.
- Infrared induction distance: 10 to 25 cm.
- Application: Gates / Doors / Exits / Automation.

Specifications

Model	AM-901B
Dimension	86 mm × 86 mm
Input voltage	12 /24VDC
Output contact	NO/NC/COM
Material	Stainless steel+ABS
Sensing distance	3-5cm
Working temperature	20 °C to 55 °C
Working humidity	0 to 95% (relative humidity)
Suitable door	All kinds of narrow doorframes
Weight	0.15kg (0.33 Lb)
